

(a)

## General Information

Number of samples:	12
Number of groups:	9
Number of genes:	20825
Dimension 1st level SOM:	20 x 20
Analysis finished:	Di Jun 03 16:26:20 2014 CEST

## Results

- [Raw Data \(PDF\)](#)

### 1st Level SOM Analysis

These reports comprise the SOM portraits in standard and alternative color scales, as well as supporting maps and profiles which provide supplementary information about the 1st level SOM.

- [1st Level SOM Expression Portraits \(PDF\)](#)
- [Alternative Color Scales: absolute, WAD, loglogFC \(PDF\)](#)
- [Rank Portraits: FC, WAD, shrinkage-t \(PDF\)](#)
- [Supporting Maps \(PDF\)](#)
- [Entropy Profiles \(PDF\)](#)
- [Topology Profiles \(PDF\)](#)

### Sample Summaries

Summary page for the individual samples.

- [Sample Reports \(HTML\)](#)

### Geneset Enrichment Analysis

Functional analyses using predefined gene sets. The results are visualized in terms of heatmaps, profile plots and population maps.

- [Functional Analysis \(HTML\)](#)

### 2nd Level Analysis

Sample similarity analyses based on different metrics applied, using the metadata as input.

- [2nd Level SOM \(PDF\)](#)
- [Similarity Based Methods: Neighbor Joining, Hierarchical Clustering \(PDF\)](#)
- [Correlation Based Methods: Spanning Tree, Networks, Maps \(PDF\)](#)
- [Component Based Methods: 2d-ICA, 3d-ICA \(PDF\)](#)

### 3rd Level Analysis

Different criteria of spot module definition such as overexpression or mutual correlations between the metagenes where applied. The reports comprise integrated portraits, functional analyses.

- [Spot Reports \(HTML\)](#)

### Group Analyses

Analyses based on group-wise aggregated data, including portraits, clustering and functional analyses.

- [Group Analysis Reports \(HTML\)](#)

(b)

## Group Overview

Groups	Number of Samples
Homeostasis	2
Endocrine	1
Digestion	1
Exocrine	1
Epithelium	1
Reproduction	1
Muscle	1
Immune System	2
Nervous System	2

### Sample Summary Sheets

For each sample a report sheet is created which summarizes the most relevant information using the global and local perspective. The global summary shows the ranked list of differentially expressed genes for the whole sample, the ranked list of over- and underexpressed gene sets after GSZ-overexpression analysis and the respective p-value distributions. The local summary sheets present the analogous information for each single spot detected. The gene and gene set list are provided as tables.

Sample Name	Group	Summary Sheet	Global Gene List	Local Gene List	Gene Set List
liver	Homeostasis	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>
kidney cortex	Homeostasis	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a> <a href="#">CSV 4</a>	<a href="#">CSV</a>
thyroid gland	Endocrine	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>
small intestine	Digestion	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a>	<a href="#">CSV</a>
prostate	Exocrine	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>
tongue	Epithelium	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a>	<a href="#">CSV</a>
testis	Reproduction	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a> <a href="#">CSV 4</a>	<a href="#">CSV</a>
skeletal muscle	Muscle	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a>	<a href="#">CSV</a>
bone marrow	Immune System	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>
lymph node	Immune System	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a>	<a href="#">CSV</a>
accumbens	Nervous System	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>
cerebral cortex	Nervous System	<a href="#">PDF</a>	<a href="#">CSV</a>	<a href="#">CSV 1</a> <a href="#">CSV 2</a> <a href="#">CSV 3</a>	<a href="#">CSV</a>

## Spot Module Report Sheets

Reports contain the spot module expression profiles and assignments of the spots to samples and to groups.

- [Overexpression Spot Report \(PDF\)](#)
- [Underexpression Spot Report \(PDF\)](#)
- [K-Means Cluster Report \(PDF\)](#)
- [Group Overexpression Report \(PDF\)](#)

## Spot Module Network Analysis

Networks of spot association are visualized as graphs. WTO, correlation networks and correlation spanning trees, are given for individual spots and spot patterns.

- [Overexpression Networks \(PDF\)](#)
- [Underexpression Networks \(PDF\)](#)
- [K-Means Cluster Networks \(PDF\)](#)
- [Group Overexpression Networks \(PDF\)](#)

## Chromosomal Enrichment

For each spot, enrichment of chromosomal positions (chromosome/band) is visualized as overview heatmaps and individual chromosome plots.

- [Overexpression Chromosomal Enrichment \(PDF\)](#)

(d)

## Gene Sets

Enrichment profiles of individual predefined gene sets are shown as bar plots across all samples. Additionally the log FC-expression profiles of the leading metagenes are shown. Further, members of each gene set are given as population maps and tables.

### Category BP

Geneset name	Category	Profile	Population Map	Members
'de novo' posttranslational protein folding	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
2-oxoglutarate metabolic process	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
3'-phosphoadenosine 5'-phosphosulfate metabolic process	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
3'-UTR-mediated mRNA stabilization	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
7-methylguanosine mRNA capping	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
acrosome assembly	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
acrosome reaction	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
actin cytoskeleton organization	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
actin cytoskeleton reorganization	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
actin filament-based movement	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
actin filament bundle assembly	BP	<a href="#">PDF</a>	<a href="#">PDF</a>	<a href="#">CSV</a>
