EnsDb.Rnorvegicus.v75

February 25, 2026

EnsDb.Rnorvegicus.v75   *Ensembl based annotation package*

Description

This package loads an SQL connection to a database containing annotations from Ensembl. For examples and help on functions see the help pages from the ensembldb package!

Note

This data package was made from resources at Ensembl on Thu May 18 11:04:17 2017 and based on the 75

Author(s)

Johannes Rainer

Examples

```
## load the library
##library(EnsDb.Rnorvegicus.v75)
## list the contents that are loaded into memory
ls('package:EnsDb.Rnorvegicus.v75')
## show the db object that is loaded by calling it's name
EnsDb.Rnorvegicus.v75

## for more examples see the ensembldb package.
```
