

Package ‘assorthead’

February 1, 2026

Version 1.5.9

Date 2026-01-31

Title Assorted Header-Only C++ Libraries

Description Vendors an assortment of useful header-only C++ libraries.

Bioconductor packages can use these libraries in their own C++ code by LinkingTo this package without introducing any additional dependencies.

The use of a central repository avoids duplicate vendoring of libraries across multiple R packages, and enables better coordination of version updates across cohorts of interdependent C++ libraries.

License MIT + file LICENSE

Suggests knitr, rmarkdown, BiocStyle
